INTERNATIONAL SCHOOL

Dragi učenici i roditelji,

Veliko mi je zadovoljstvo što vam se obraćam u okviru biltena International Schoola, koji prikazuje sve što smo tokom drugog polugodišta postigli zahvaljujući zajedničkoj motivaciji, vrednom radu i ogromnom trudu. Završetak školske godine doneo je brojna nezaboravna iskustva, osnažena su postojeća i razvijena nova prijateljstva, podstičući nas da sa još većim entuzijazmom i željom krenemo u ostvarenje ciljeva.

Pored sjajnih uspeha koje su učenici International Schoola postigli na sportskim terenima i halama širom zemlje i regiona, kao domaćini, ugostili smo veliki broj zanimljivih gostiju i organizovali mnogo edukativnih radionica i interaktivnih predavanja, čime smo još jednom pokazali kako se teorijska i praktična znanja moderno povezuju u školi koja opravdava svoj moto – „Truly different“.

I ovog polugodišta pokazali smo da je humanost jedna od neodvojivih vrednosti škole i vrlina koju naši učenici i te kako poseduju, pa smo tako za decu iz Svratišta obezbedili pakete pomoći, koji su izmamili dečje osmehe. Bravo, ponosna sam na vašu nesebičnost!

Učestvovali smo i na internacionalnim takmičenjima i konferencijama i postigli sjajne rezultate, a naši učenici primljeni su na prestižne svetske univerzitete. Samo nastavite tako!

L – STVARNO DRUGAČIJA

Posebno bih želela da istaknem način na koji smo se suočili sa zdravstvenom krizom i vanrednom situacijom. Kreativnost, volja i tehnološki kapacitet škole došli su do izražaja i pokazali kako International School sa svojim učenicima i profesorima može da prevaziđe i najteže prepreke. Kroz onlajn-nastavu razvijali smo digitalne kompetencije, a neki učenici su akademski zasijali iza svojih monitora. Osnajili smo se kroz solidarnost, podršku, razumevanje i empatiju dok smo čuvali jedni druge uz moto #ostanikodkuće.

Drugi deo godine protekao je u duhu velikog broja kreativnih časova koji u prvi plan stavljaju interdisciplinarni pristup i razumevanje gradiva na jednostavan i zanimljiv način, a posetili smo i veliki broj muzeja, kulturno-istorijskih ustanova i uživali u virtuelnoj realnosti, dok smo se za Noć veštica sjajno proveli uz zanimljive radionice i tradicionalno rezbarjenje bundeva.

Pred vama je deseti bilten International Schoola, koji iz našeg ugla podseća na sve ove događaje. Sada je došao trenutak da se lepo odmorite i napunite baterije za nove izazove koji nas očekuju u septembru.

Želim vam da se lepo provedete na raspustu i iskoristite ga na najbolji mogući način.

Za sva pitanja ja sam vam, kao i do sada, uvek dostupna, a posebno cenim sve vaše sugestije za unapređenje škole.

S poštovanjem,

Svetlana Belić Matinić

direktorka International Schoola

INTERNATIONAL SCHO

Dear students and parents,

It is my great pleasure to greet you on the pages of the International School's bulletin, designed to showcase all the results we achieved in the second and third term thanks to our motivation, hard work and dedication. The end of the school year brought many unforgettable experiences; existing friendships were strengthened and new ones forged, all of which encouraged us to move towards our goals with even greater enthusiasm and determination.

In addition to the outstanding results International School's students achieved on sports fields and halls across the country and the region, we welcomed many interesting guests and hosted educational workshops and interactive lectures, showing once again that theory and practice merge into the motto which the International School proudly represents – Truly Different.

This term, we showed once again that altruism is one of the intrinsic characteristics of our students. For the children at the Drop-In Centre, we provided gift baskets which put smiles on the little ones' faces. Well done, I am proud of your selflessness! We took part in international competitions and conferences where we achieved great results, and our students were accepted to prestigious universities around the world. Keep up the good work!

I would particularly like to highlight the way in which we tackled the health crisis and the state of emergency. Creativity,

SCHOOL – TRULY DIFFERENT

determination and the school's technological capacity showed how the International School and its students and teachers can overcome the biggest obstacles. Through online teaching, we developed digital competencies and some of the students showcased their academic brilliance behind their monitors. We encouraged each other through solidarity, support, understanding and empathy, and took care of each other using the #stayathome hashtag.

The second part of the year was full of creative lessons promoting an interdisciplinary approach and learning in a simple and interesting manner. We also visited many museums and cultural and historical institutions, and enjoyed VR ventures. For Valentine's Day, we had a great party and played many interesting games.

In front of you is International School's tenth bulletin, which gives our accounts of all these events. The time has come for you to rest and recharge your batteries for the challenges in September. Have a lovely break and enjoy it to the fullest.

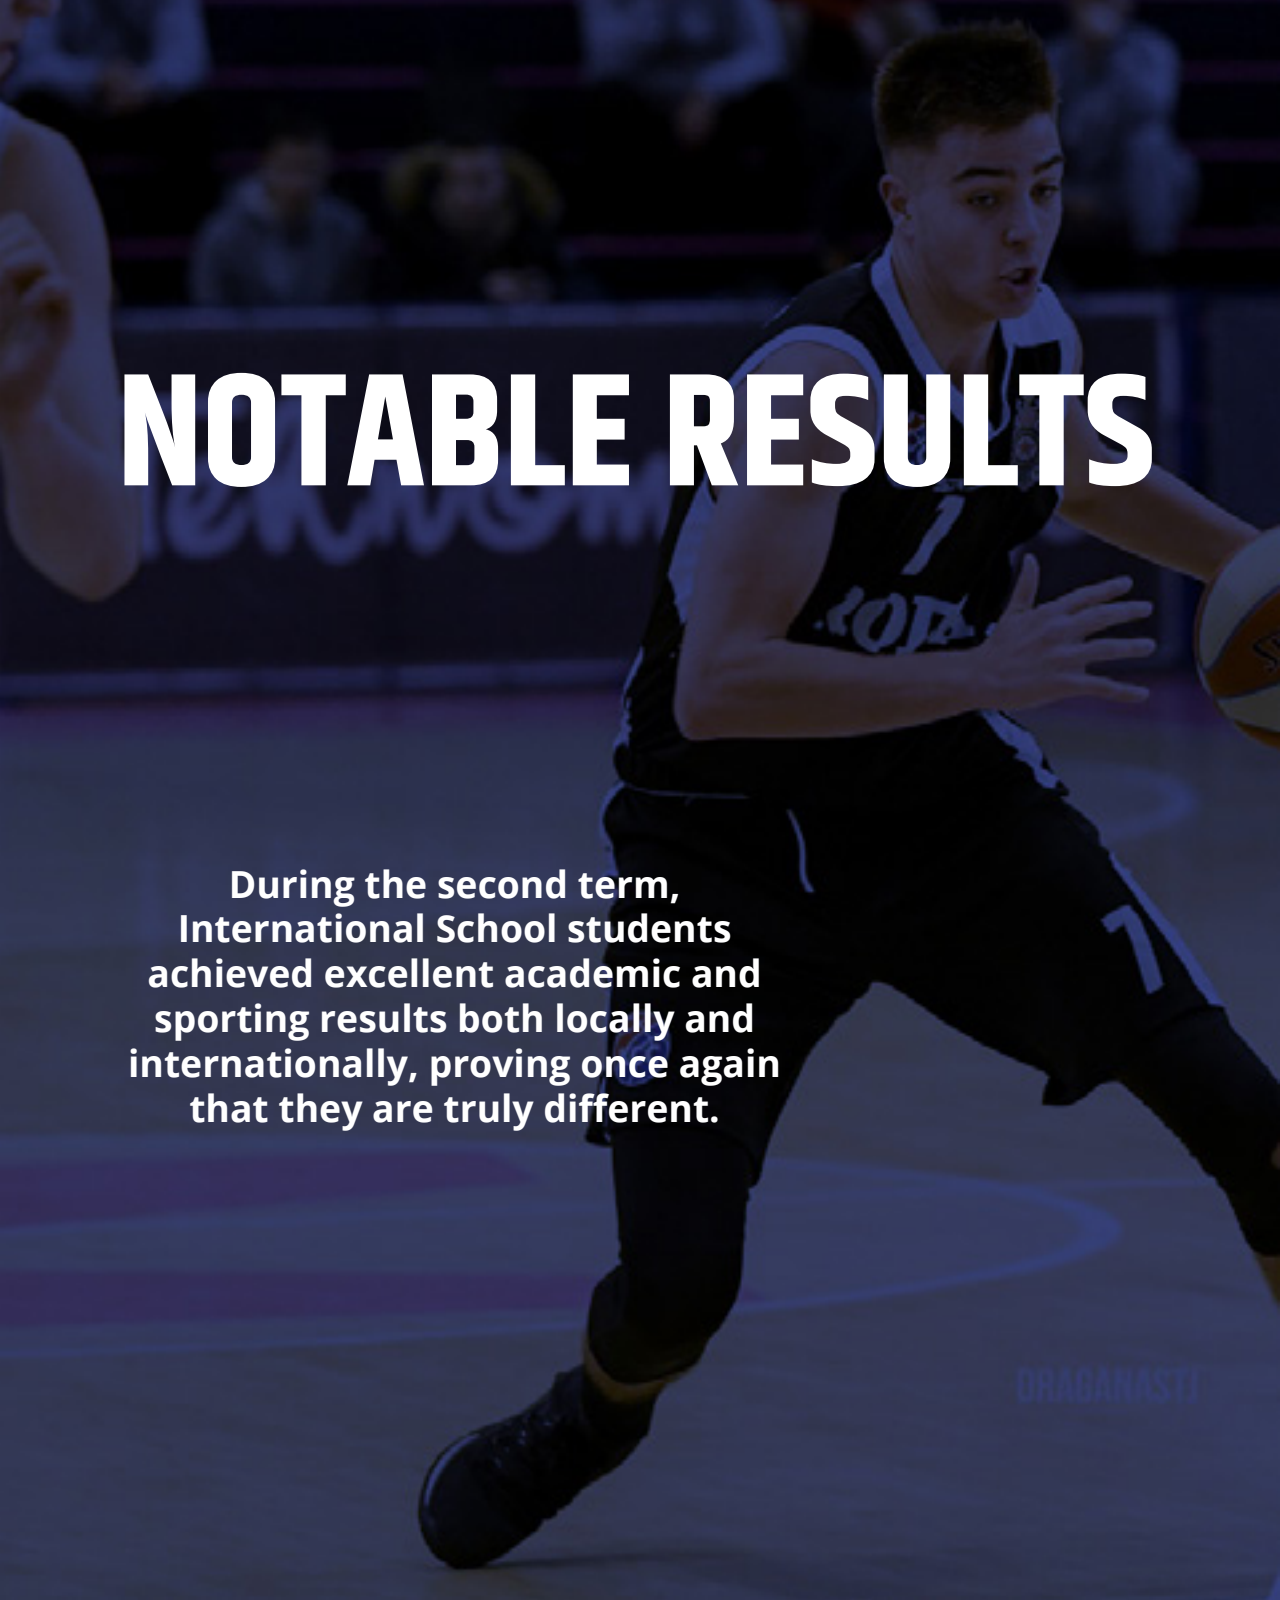

As always, I am here for any concerns you might have and I greatly appreciate all your suggestions for school improvement.

Kind regards,

Svetlana Belić Matinić

Principal of the International
School

STUDENTS OF THE INTERNATIONAL SCHOOL PARTICIPATED IN MUN

Year 12 students Uroš Jež and Luka Connolly participated in the first Model United Nations (PBGMUN) conference organised by "Prva bošnjačka gimnazija" from Sarajevo. The topics of this year's PBGMUN sessions were the Syrian-Turkish conflict, the poaching of endangered species, human trafficking and the question of nuclear, chemical and biological weapons.

Although schoolmates, Uroš and Luka faced each other in the debate since Uroš Jež was chosen to represent the delegation of Turkey and defend its actions against Syria, while Luka Connolly represented Belgium and the views of the EU and NATO. Uroš Jež once again won the best delegate award, for the fourth time in a row.

UČENICI INTERNATIONAL SCHOOLA UČESTVOVALI NA MUN KONFERENCIJI

Teme ovogodišnjih sesija PBGMUN-a bile su sirijsko-turski sukob, krivolov ugroženih vrsta, trgovina ljudima i pitanje nuklearnog, hemijskog i biološkog oružja.

Iako su oni došli zajedno, tokom debate bili su suparnici, jer je Uroš izabran da predstavlja delegaciju Turske i da brani njihove akcije protiv Sirije, dok je Luka zastupao Belgiju i stavove EU i NATO. Uroš Jež još jednom je osvojio nagradu za najboljeg delegata, i to četvrti put zaredom.

The creative gaming team consisted of four students, Iva Živaljević, Jovana Petrović, Milica Petronijević and Mihailo Jovanović, and the Mathematics and Art and Design teachers.

This year's theme was "Repair" and our great young creative minds came up with the idea to create a table-top game where players take on the services of goblin-supermodels who want to get rich on commercials in their fantasy world. The working name of the game was "Fortune Makeovers".

UČENICI INTERNATIONAL SCHOOLA NA „GLOBAL GAME JAMU”

Treću godinu zaredom tim International Schoola učestvovao je na događaju „Global Game Jam” u Nordeus Hubu. Kreativni tim sastavljen je od četiri učenika: Ive Živaljević, Jovane Petrović, Milice Petronijević i Mihaila Jovanovića i profesora matematike i profesorke umetnosti i dizajna.

Ovogodišnja tema bila je „Popravka”, a sjajni mladi kreativni umovi osmislili su društvenu igru u kojoj su protagonisti goblin-supermodeli koji žele da se obogate u reklamama svog izmišljenog sveta. Radni naziv igre učenika International Schoola bio je „Fortune Makeovers”.

THE PHENOMENON OF APPLE

International School's Economics and Business students attended a groundbreaking lecture given by Dr Miloš Petković, an expert on international management. The lecturer tried to implement some of the most efficient strategic tools to explain the phenomenon of Apple.

Dr Miloš Petković introduced students to several most important methods of strategic analysis and explained them using the Apple company as an example. Apart from learning about the inner workings of one of the biggest companies, International School's students had a chance to think about their possible future career choices.

FENOMEN KOMPANIJE „APPLE”

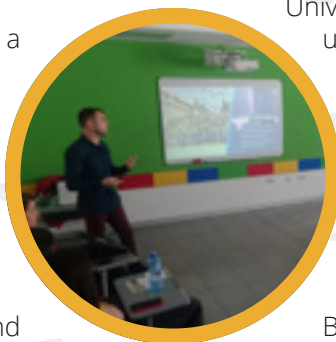

Učenici International Schoola koji pohađaju časove ekonomije i biznisa prisustvovali su inovativnom predavanju dr Miloša Petkovića, stručnjaka za međunarodni menadžment. Predavač je pokušao da primeni jedan od najefikasnijih strateških alata kako bi objasnio fenomen kompanije „Apple”.

Dr Miloš Petković učenicima je predstavio nekoliko najvažnijih metoda strateške analize i objasnio ih koristeći ovu poznatu kompaniju kao primer. Učenici International Schoola, pored toga što su saznali više o radu jedne od najvećih kompanija, tokom predavanja su mogli da razmotre i svoj budući poziv u ovoj unosnoj industriji.

JACOBS UNIVERSITY AT INTERNATIONAL SCHOOL

At the beginning of the year, the students of the International School attended a presentation on Jacobs University. A representative of this university introduced International School's students to their academic programme that provides a broad range of academic majors in natural sciences, engineering and social sciences.

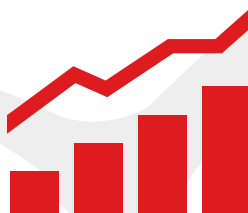

Jacobs University is a research-oriented, state-recognised university in Bremen, Germany. Located in the heart of Europe, their campus is the home of a truly international community. The International School provides a diverse and stimulating learning environment for the students, which is necessary for their personal and academic growth. Since Jacobs University values similar pedagogical strategies, International School gladly offered the students an opportunity to continue their education in Bremen.

UNIVERZITET JACOBS U INTERNATIONAL SCHOOLU

Početkom godine, učenici International Schoola prisustvovali su predavanju predstavnika Univerziteta Jacobs. Predstavnik Univerziteta Jacobs upoznao je učenike International Schoola sa akademskim programom, koji pruža širok spektar akademskih smernica iz prirodnih nauka, inženjerstva i društvenih nauka.

Univerzitet Jacobs je naučno orijentisan univerzitet, prepoznat od strane države. Smešten u Bremenu, u srcu Evrope, kampus Univerziteta Jacobs je dom istinski međunarodne zajednice. International School pruža raznoliko i podsticajno okruženje za svoje učenike, što je neophodno za njihov lični i akademski razvoj. Budući da Univerzitet Jacobs ceni slične pedagoške strategije, International School je rado ponudio učenicima priliku da nastave školovanje u Bremenu.

PRESENTATION OF THE FACULTY OF ECONOMICS

PREZENTACIJA EKONOMSKOG FAKULTETA

Students of the International School attended a useful presentation given by representatives of University of Belgrade's Faculty of Economics. Particularly interesting was the presentation of Economics and Finance, and Business and Management – English-mediated international programmes created in cooperation with the London School of Economics.

The faculty has an innovative and contemporary approach to studies and the curricula and syllabi are constantly updated to mirror the global changes in education systems and the labour market. This is why the students were presented with an opportunity to learn about the Faculty of Economics, which has a well-developed network of companies offering internships to students and enabling them to acquire invaluable skills for their future.

Učenici International Schoola prisustvovali su korisnoj prezentaciji koju su pripremili predstavnici Ekonomskog fakulteta Univerziteta u Beogradu. Posebno je zanimljiva bila prezentacija smerova Ekonomija i finansije i Poslovanje i menadžment – međunarodnih programa na engleskom jeziku, kreiranih u saradnji sa Londonskom školom ekonomije.

Fakultet ima inovativan i savremen pristup studijama, uz nastavni program koji se stalno ažurira u skladu sa globalnim promenama u obrazovnim sistemima i na tržištu rada. Upravo zbog toga su učenici imali sjajnu priliku da saznaju više o fakultetu koji ima razvijenu saradnju sa mrežom kompanija koje studentima nude prakse i mogućnost zaposlenja, uz unapređenje veština.

EUROPEAN UNIVERSITIES CONSORTIUM AT THE INTERNATIONAL SCHOOL

In March, the International School welcomed the representatives of the European Universities Consortium (EUC). Year 13 students had an amazing opportunity to learn more about the universities they're interested in; the event also served as a kick-start for the indecisive ones. The European Universities Consortium is an alliance of eight high-ranking universities located in Austria, Belgium, Italy, Ireland, Germany, Spain and Switzerland.

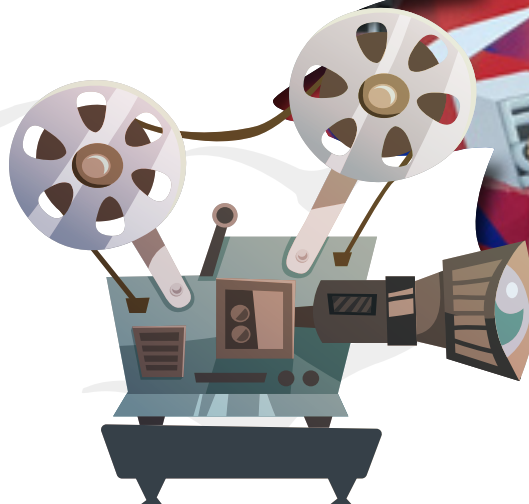

The students seized the opportunity to meet with representatives of this consortium and learn more about these universities' bachelor programmes. At the very beginning, the students saw a general EUC presentation, which was followed by short presentations from all universities. The event was concluded by a mini-fair of sorts, where the students had a chance to discuss individual programmes directly with the university representatives.

EVROPSKI UNIVERZITETSKI KONZORCIJUM U INTERNATIONAL SCHOOLU

International School je u martu ugostio predstavnike konzorcijuma evropskih univerziteta (EUC). Učenici Year 13 imali su priliku da saznaju više o univerzitetima koji ih zanimaju; događaj je poslužio i kao dobar trenutak za one neodlučne. Konzorcijum evropskih univerziteta savez je osam visokorangiranih univerziteta koji se nalaze u Austriji, Belgiji, Italiji, Irskoj, Nemačkoj, Španiji i Švajcarskoj.

Učenici su iskoristili priliku da se sastanu sa predstavnicima ovog konzorcijuma i saznaju više o programima univerziteta. Na samom početku, kroz opštu prezentaciju EUC-a, upoznali su se kratko sa svim univerzitetskim programima. Događaj je završen mini-sajmom, na kojem su učenici imali priliku da direktno razgovaraju o pojedinim programima sa predstavnicima univerziteta.

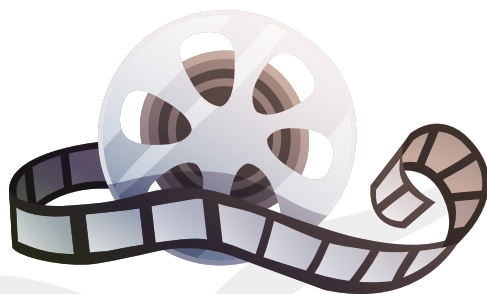

STUDENTS OF THE INTERNATIONAL SCHOOL VISITED FEST

International School students and their Psychology teachers visited the popular film festival, FEST, and watched the historical drama "A Hidden Life" from the acclaimed director Terrence Malick. The film is based on the letters of an Austrian farmer who, upon being called to serve in the army, refused to pledge loyalty to Hitler, and was imprisoned and executed as a result.

The students had to step into the lead actor's shoes to try to understand his ethical dilemmas. They had to project themselves into the mind of a relatively simple man in a period of terror and confusion. Even though this is a drama with a strong theme, the students loved the film and the conversation about it.

UČENICI INTERNATIONAL SCHOOLA POSETILI FEST

Učenci International Schoola, zajedno sa svojim nastavnicima psihologije, posetili su popularni filmski festival – FEST, na kom su gledali istorijsku dramu „Ukradeni život” poznatog režisera Terensa Malika. Film je zasnovan na pismima austrijskog farmera, koji je, pošto je pozvan da služi u vojsci, odbio da pokaže lojalnost Hitleru i kao rezultat toga je zatvoren i pogubljen.

Učenci su tokom projekta „uskočili” u cipele glavnog junaka kako bi pokušali da razumeju njegove etičke dileme. Morali su da se projektuju u um relativno prostog čoveka u vremenu terora i zbrke. Iako je ovo drama sa prilično ozbiljnom temom, učenicima se dopao film i razgovor na temu iz ostvarenja.

SCHOOL TRADITIONS

This year, the students once again showed their altruism by helping the children from the Drop-In Centre. They had a great Valentine's Day party and celebrated Global Perspectives Day.

ŠKOLSKE TRADICIJE

Učenici su i tokom ove
školske godine pokazali
humanost organizujući akciju
za decu iz Svratišta, uživali su u
sjajnoj žurki za Dan zaljubljenih,
a posebno je obeležen i Dan
Globalnih perspektiva.

STUDENTS OF THE INTERNATIONAL SCHOOL VISITED THE DROP-IN CENTRE

The students from the International School visited the Drop-In Centre (Svratíšte) together with their Global Perspectives teacher and brought warm clothes and shoes for the ones in need, showing once again their humanity.

The students collected clothes and shoes, as these items were most needed during winter time. All the clothes the students don't use or perhaps can't fit into, found their owner at the Drop-In Centre. The students showed their enthusiasm and will to participate as they were happy to help and support their peers in need.

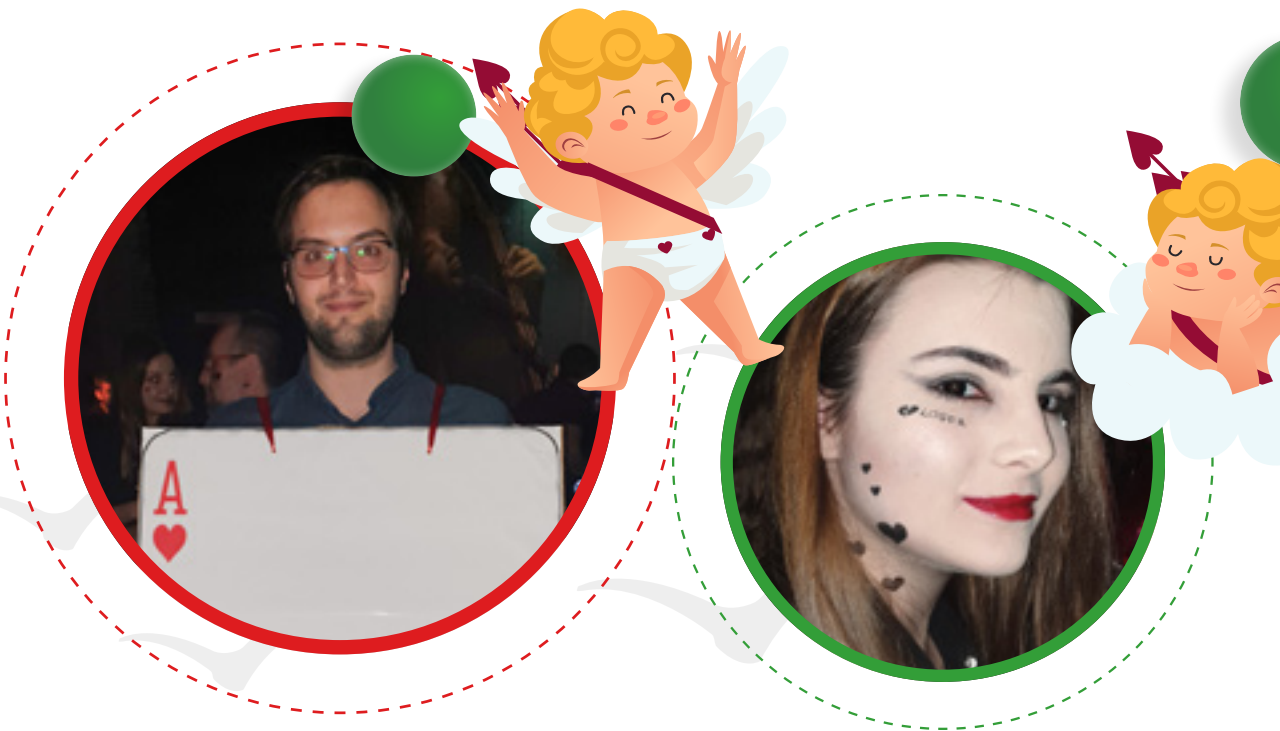

UČENICI INTERNATIONAL SCHOOLA POSETILI SVRATIŠTE

Učenici International Schoola su zajedno sa nastavnicom Globalnih perspektiva posetili Svratište i šticienicima doma odneli toplu odeću i obuću, pokazajući tako još jednom svoju humanost.

Učenici su sakupili odevne predmete koji su korisnicima doma zimi najpotrebniji. Sva odeća koju učenici ne nose ili možda više ne mogu da obuku našla je svog novog vlasnika u Svratištu. Oni su još jednom pokazali entuzijazam i želju za učešćem. Rado su podržali svoje vršnjake kojima je pomoć bila potrebna i pomogli im.

AMAZING VALENTINE'S DAY PARTY

The International School threw a Valentine's Day party to remember. The loVers and the loSers gathered at the Soul Society Club to celebrate love. A heart on the cheek was the ticket for the coolest party ever. Everybody contributed to the good vibes, which made this party unforgettable. Both the students and the teachers were dressed accordingly, either as loVers or loSers.

Computer Science and Mathematics teachers came dressed up as enormous playing cards. The Art and Design teacher made a kissing booth so that the students could have a place for taking photos. There was a small game stand where the students played heart pong. There was also a competition. The teachers voted for the best lover, the best loser, the best dancer, the best face art and the kindest heart. The winners received gift certificates that guaranteed two or three free passes for undone homework assignments. It was truly fun and unforgettable.

FENOMENALNA ŽURKA ZA DAN ZALJUBLJENIH

International School je organizovala nezaboravnu žurku za Dan zaljubljenih. „LoVers” i „loSers” su se okupili u klubu „Soul Society” kako bi proslavili ljubav. Srce na obrazu je bilo ulaznica za najbolju žurku ikad osmišljenu. Svi su doprineli dobrim vibracijama, zbog čega je ova zabava postala nezaboravna. I učenici i nastavnici bili su u skladu s tim odeveni, bilo kao tim „loVers” ili „loSers”.

Nastavnici informatike i matematike bili su obučeni u ogromne karte za igru, nastavnica umetnosti i dizajna napravila je kabinu za ljubljenje kako bi učenici imali mesto za fotografisanje. Učenici su na malom štandu igrali „heart pong”, a organizovano je i takmičenje. Nastavnici su glasali za najboljeg „lovera”, najboljeg „losera”, najboljeg plesača, najbolje iscrtano lice i najbolju dušu. Pobednici su dobili poklon-vaučer koji je garantovao dva ili tri besplatna prolaza za neurađene domaće zadatke. Ovom zabavom je na spektakularan način najavljen raspust. Bilo je istinski zabavno i nezaboravno.

GLOBAL PERSPECTIVES WEEK MARKED AT THE INTERNATIONAL SCHOOL

International School students and professors took part in a project called Global Perspectives Week. During this week, each lesson focused on developing one key skill. The schools that were involved in this project shared what they were doing in their Global Perspectives lessons that week on social media using the hashtag #GlobalPerspectivesWeek.

International School Year 10 students prepared the lessons in which they learnt how to evaluate different sources. The main objective was developing the skill to criticise and evaluate the sources. In these lessons, the students were divided in teams that focused on climate change issues.

NEDELJA GLOBALNIH PERSPEKTIVA U INTERNATIONAL SCHOOLU

Učenci i profesori International Schoola učestvovali su u projektu „Nedelja Globalnih perspektiva“. Tokom nedelju dana svaka lekcija bila je usmerena na jednu ključnu veštinu. Škole koje su uključene u ovaj projekat podelile su utiske sa predavanja na društvenim mrežama, koristeći hešteg #GlobalPerspectivesWeek.

Učenci Year 10 International Schoola spremili su lekciju tokom koje su naučili kako da evaluiraju različite izvore. Glavni cilj bio je razvijanje kritičkih veština prilikom provere različitih izvora. Tokom lekcije, učenci su bili podeljeni u timove i ciljevi istraživanja bili su klimatske promene i njihov uticaj na planetu.

CAMBRIDGE UNLOCKED A SET OF RESOURCES DURING THE EPIDEMIC

During the COVID-19 epidemic Cambridge unlocked Resource Plus, an educational programme that provides platform users with high-quality video materials, interactive tools, lessons and teaching materials which help the students learn and prepare for their examinations.

Being digitally-minded, International School teachers and students greatly appreciated these resources and used them in their teaching and learning, since they used the Distance Learning System and studied from their homes.

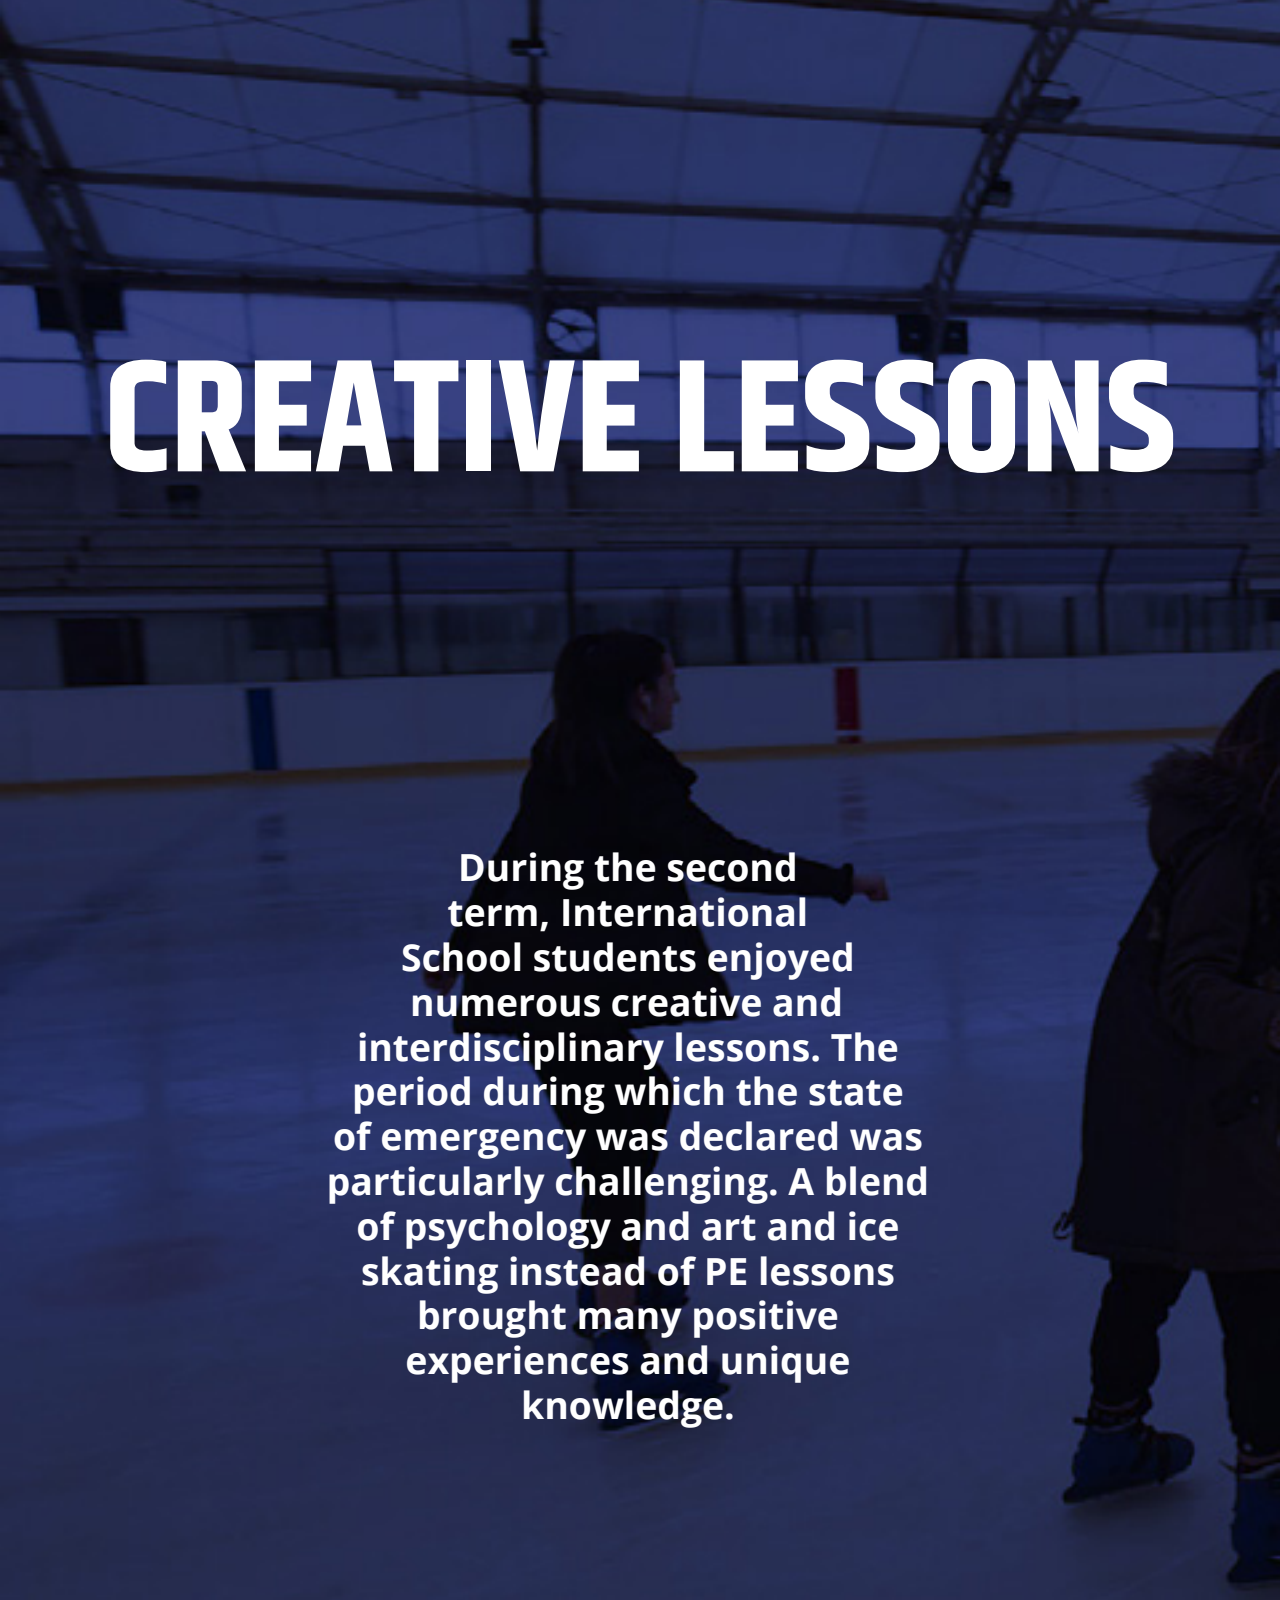

KEMBRIDŽ UNIVERZITET OTKLJUČAO SET MATERIJALA TOKOM EPIDEMIJE

Tokom epidemije virusa COVID-19, Kembridž je otključao set predavanja Resource Plus, edukativni program koji učenicima omogućava da putem video-materijala, interaktivnih alata, časova i nastavnih materijala bolje prate nastavu i da se bolje pripreme za ispite.

Budući da nastavnici i učenici International Schoola poseduju napredno digitalno znanje, takvi resursi su u velikoj meri olakšali proces učenja i predavanja jer su učenici nastavu pratili od kuće putem Distance Learning Systema.

CREATIVE LESSONS

The background image shows an indoor ice skating rink. In the center, a person is skating away from the camera. To the right, another person is partially visible, also skating. The rink is enclosed by a white barrier with blue and red markers. The ceiling is high with visible structural beams and lighting fixtures. The overall lighting is dim, giving the image a cool, blue-toned appearance.

During the second term, International School students enjoyed numerous creative and interdisciplinary lessons. The period during which the state of emergency was declared was particularly challenging. A blend of psychology and art and ice skating instead of PE lessons brought many positive experiences and unique knowledge.

KREATIVNI ČASOVI

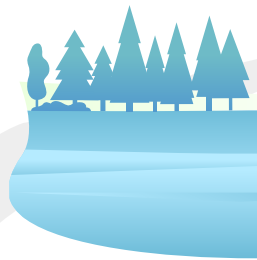

Za učenike
International Schoola
tokom drugog polugodišta
održan je veliki broj kreativnih,
interdisciplinarnih časova, a
poseban izazov predstavljao je
period vanrednog stanja. Spoj
psihologije i umetnosti i klizanje
umesto časova fizičkog doneli su
učenicima pozitivna iskustva i
nova, jedinstvena znanja.

ICE SKATING INSTEAD OF REGULAR PE LESSONS

International School's students were given the chance to showcase their acrobatic skills on ice, as the school substituted regular PE lessons in the gym for ice skating for two weeks. This winter activity was met with enthusiasm and excitement at the International School. Some of the students were thrilled, some of them not so much, but all of them had a lot of fun, that's for sure.

Some had a shaky start and had to hold on to each other, however, it wasn't long before they mastered the ice skating skill. International School's students enjoyed this winter activity which has numerous health and fitness benefits.

KLIZANJE UMESTO ČASOVA FIZIČKOG

Učenici International Schoola imali su priliku da pokažu svoje akrobatske veštine na ledu jer je škola zamenila tradicionalne časove fizičkog klizanjem na ledu tokom dve nedelje januara. Ova zimska aktivnost dočekana je sa entuzijazmom i uzbuđenjem. Neki od učenika bili su oduševljeni, neki i ne baš mnogo, ali svi su se veoma zabavili.

Pojedini su imali težak početak i morali su da se drže jedni za druge, međutim, nakon nekoliko časova uspeali su da savladaju veštinu klizanja. Učenici International Schoola uživali su u ovoj zimskoj aktivnosti, koja umnogome doprinosi zdravlju i kondiciji, i jedva čekaju da se opet oprobaju na ledu.

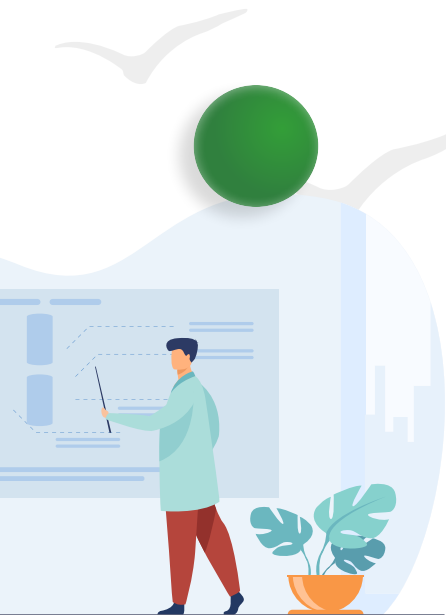

INTERDISCIPLINARY LESSON – HOW TO USE NON-VERBAL COMMUNICATION?

Art & Design teacher, Anja Jovović, together with Željko Ljiljak-Vukajlović, Psychology teacher, joined forces to make students use non-verbal communication in yet another interesting interdisciplinary lesson at the International School.

The students were given a short description of a product that they then visualised and presented to the rest of the class. The main goal of this lesson was to demonstrate how to use non-verbal communication through visual cues in order to decide what to buy. By having them explain the reasoning behind their aesthetic choices, the teachers gave the students a practical display of how marketing experts and designers shape our perception.

INTERDISCIPLINARNI ČAS: KAKO SE KORISTI NEVERBALNA KOMUNIKACIJA?

Na još jednom zanimljivom interdisciplinarnom času održanom u International Schoolu Anja Jovović, profesorka predmeta Art & Design, i Željko Ljiljak-Vukajlović, profesor psihologije, udružili su snage kako bi učenicima približili načine na koje se koristi neverbalna komunikacija.

Učenicima je dat kratak opis proizvoda koji su potom vizualizovali i predstavili ostatku razreda. Glavni cilj ovog časa bio je da se pokaže kako se neverbalna komunikacija koristi kroz vizuelne znakove prilikom kupovine. Učenici su kroz obrazloženje svojih estetskih izbora postigli zamisao nastavnika da se praktično prikaže način na koji marketinški stručnjaci i dizajneri oblikuju našu percepciju.
